**President's Message: The Sixth Annual  
Colonial Coast Birding and Nature Festival**  
*By Bob Sargent*

Last fall I heard some people suggest that there was no way we could improve on the 2007 festival. Now, you know that kind of talk can be perceived as a challenge, and that's exactly the way the 2008 festival committee chose to interpret the words. The gauntlet has been thrown down, and we've kicked it aside on our way to putting together the best birding show ever held on the coast. I know that seems like a mighty bold statement, but visualize this: 1) Fifty-three field trips scheduled from Thursday through Monday, including two to St. Catherines Island, and four each to Sapelo Island, Little St. Simons Island, and Blackbeard Island National Wildlife Refuge; 2) Nineteen seminars covering everything from shorebird and sparrow identification to teaching kids how to bird watch and adults how to digiscope; 3) Identifying thrush species by their night calls and raptors by their silhou-

## MARK YOUR CALENDAR!

6<sup>th</sup> Annual Colonial Coast Birding and  
Nature Festival  
October 9-13, 2008, Jekyll Island, GA

GOS Winter Meeting  
January 16-19, 2009, Tybee Island, GA

GOS Spring Meeting  
April 24-26, 2009, Rome, GA

ettes; 4) Birding from the deck of a working shrimp boat at sea, and from the cockpit of a kayak in a cypress swamp; and 5) A weekend spent as a student of Pete Dunne, author extraordinaire, founder of the World Series of Birding, Vice President of the New Jersey Audubon Society and Director of the Cape May Bird Observatory, and recipient of the American Birding Association's Roger Tory Peterson Award for promoting the cause of birding. That's right -- you have the opportunity to sit in nature's classroom as a student of one of the best birders in the country. You see, Pete isn't just going to be the banquet speaker where he'll present "Twenty-five Things That Changed Birding"; he's also going to teach a workshop called "The Art of Fishing," which is based on one of his books, and he will lead a Saturday morning field trip to Altamaha Waterfowl Management Area.

*The 2008 GOS membership list is available electronically via e-mail or as a hard copy. Please send your request to [membership@gos.org](mailto:membership@gos.org) (Allison Reid) for an e-mail copy or to GOS, 198 Ponce de Leon Ave, Unit 7C, Atlanta, GA 30308 for a paper copy. Available to members only.*

### **GOShawk Now Available Online**

Past and current issues of the *GOShawk* are now available online in .pdf format at the following URL:  
<http://www.gos.org/newsletters/newsletter.pdf>

**President's Message** *(continued from page 1)*

And speaking of Pete's books, he plans to do a book signing on Saturday afternoon.

So what do you say? Does it seem like a worthwhile way to spend an October weekend (9th through the 13th)? I thought you might see it that way. At this time, we're planning to start accepting registrations for the festival on 23 August. The registration booklet is approaching final draft status and will be mailed to previous festival attendees later this summer, and, of course, you can register for everything online. For more information, including lodging details and driving directions, be sure to visit the festival website at <http://www.coastalgeorgiabirding.org/>. Don't you miss the best Georgia festival ever.

---

**Application Deadlines for Graduate Student Grants**

If you're a graduate student and are planning to apply for one of the grants GOS offers for students, please note that the deadline for applying for this year's Bill Terrell Graduate Student Research Grants is 1 December. The new deadline for applying for the H. Branch Howe Graduate Student Research Grants is 31 December. Be sure to study thoroughly the application criteria for each grant and choose the one that is better for you, as a student cannot apply for both grants in the same year. Only GOS members can apply for grants offered by the society. For more information, visit <http://www.gos.org/grants/>

**Publications by GOS Grantees**

Recent recipients of H. Branch Howe Graduate Student Research Grants from GOS are making an impact on the ornithological literature. Libby Mojica, John Sabine and Brady Mattesson, all of whom conducted their research at the University of Georgia with Dr. Joe Meyers, have published the journal articles listed below.

Mojica, E.K., J.M. Meyers, B.A. Millsap, and K.L. Haley. 2008. Migration of Florida sub-adult Bald Eagles. *Wilson Journal of Ornithology* 120: 304-310.

Sabine, J.B., J.M. Meyers, C.T. Moore, and S.H. Schweitzer. 2008. Effects of human activity on breeding American Oystercatchers, Cumberland Island National Seashore, Georgia, USA. *Waterbirds* 31: 70-82.

Mattesson, B.J., J.M. Meyers, and R.J. Cooper. 2006. Detrimental impacts of radio transmitters on juvenile Louisiana Waterthrushes. *Journal of Field Ornithology* 76: 173-177.

Sabine, J.B., S.H. Schweitzer, and J.M. Meyers. 2006. Nest fate and productivity of American Oystercatchers, Cumberland Island National Seashore, Georgia. *Waterbirds* 29: 308-314.

Sabine, J.B., J.M. Meyers, and S.H. Schweitzer. 2005. A simple, inexpensive video camera setup for the study of avian nest activity. *Journal of Field Ornithology* 76: 294-298.

---

**GOS E-Mail List**

In order to more efficiently communicate with our members, GOS has established an e-mail list. The e-mail list will be used to communicate with you about bird conservation issues, membership renewals, birding events in Georgia, and occasional items that may be of interest to GOS members. If you wish to add your e-mail address to the GOS database, please contact Allison Reid, GOS Membership Chair, at [membership@gos.org](mailto:membership@gos.org).

**In Memoriam: Donald G. Cohrs***By John Swiderski*

Donald G. Cohrs, 81, passed away on Saturday, April 26, 2008, at his home, "Midge Manor," near Darien, Georgia, with his wife, Doris, at his side. His death came just short of their 37<sup>th</sup> wedding anniversary. Don was a soft spoken, gentle man who had a love for people and the gift to be able to relate to them.

Don was born in Chicago on June 7, 1926, but lost his father Irvin, who had been subjected to poisonous gas during World War I, in 1928. An aunt and uncle helped raise the family as their own. Don saw military service himself in World War II with the Army in the Philippines and Japan from 1944 to 1946. After the war he attended the University of Illinois. Don worked as a traveling salesman in the Midwest and then the South when he came to Atlanta in 1969. Living in East Point he decided to get off of the road and started his own remodeling and repair business, The House Menders, in the 1970s in the Atlanta area and later in Darien.

Don worked as a traveling salesman in the Midwest and then the South when he came to Atlanta in 1969. Living in East Point he decided to get off of the road and started his own remodeling and repair business, The House Menders, in the 1970s in the Atlanta area and later in Darien.

Don is best known to most of us through his involvement with the Jekyll Island Banding Station. One cannot really talk just about Don and JIBS, though, because he and Doris were very much a team (along with Terry Moore in the early years) when it came to JIBS. Doris and Terry received their master banding permits in the 1970s. After doing some banding around the Atlanta area, they hit on the idea of undertaking a pilot banding project on Jekyll Island over Thanksgiving weekend of 1977. That weekend blossomed into a labor of love for Don and Doris over the ensuing 20 years.

Although Don did not become a master bander, he did become proficient at all the necessary banding skills as a sub-permittee. While Doris looked after the technical side of JIBS, Don was interacting with all the hundreds of birders and young people who visited the station over the years to experience the wonder of birds close-up and personal. A number of those folks over the years became master banders in their own right and made it possible to operate JIBS for longer periods of time each fall. Don and Doris received the 1990 Earle R. Greene Memorial Award from GOS in recognition of their contribution to the knowledge of birdlife in coastal Georgia.

Was JIBS all work and no play? Definitely not! The banders and "band-aides" typically shared a house (Tabby Cottage) close to the JIBS site each year, and the evenings were filled with good food, some wine, and lots of fellowship.

*(continued on page 5)*

**Donald Cohrs** (continued from page 4)

Not as well known is that Don regularly mentored McIntosh County school system students for many years. He also found time to volunteer with the McIntosh County Habitat for Humanity affiliate. He and Doris had somewhat of a second “home” on Sapelo Island, where they were regular volunteers and Don served as the first president of Friends of Sapelo. He used his carpentry and building skills to carry out and advise on projects on the island. A live oak tree has been planted in his memory near the education building that he helped construct.

Don is survived by his wife Doris, son Larry and daughter Amy Vassey, three grandchildren, and a legion of friends. Don preferred that he have no memorial service and suggested that “I would really prefer that you take a long walk in the woods, keeping your ears and eyes open. The wonders of nature are awesome.”

(Doris Cohrs and Amy Vassey contributed to this memorial.)

## **GOS 2008 Spring Meeting Summary**

*By Phil Hardy*

The quaint town of Clayton, in the mountains of north Georgia, hosted the 2008 GOS Spring meeting from May 16-18. Apparently the mountains agreed with many, as 97 GOS members registered for this event. Birding in the higher elevations gave “flat-land” birders the opportunity to see species not found elsewhere. The weather cooperated nicely as we searched for mountain species.

The historic Old Clayton Inn served as our meeting headquarters, with registration held Friday afternoon. Nearby shops within walking distance offered unique shopping opportunities for non-birding spouses or any others who were so inclined. The speaker for Friday evening was Kirk Stodola, a Ph.D. candidate at the University of Georgia and recipient of the H. Branch Howe, Jr., Graduate Student Research Award. Kirk’s presentation was entitled “A Bird’s Eye View of Climate Change,” and included a delightful PowerPoint presentation on his research into the ecol-

ogy of Black-throated Blue Warblers in the Georgia mountains.

After a delicious complimentary hot breakfast for those staying at the Old Clayton Inn, birders were off to their field trips beginning at 6:20 AM Saturday. The temperature was a cool 41°F as birders departed the hotel, making a jacket feel wonderful. Saturday’s field trips included Brasstown Bald, Sosebee Cove and Cooper’s Creek WMA, led by Ken Blankenship; Burrell’s Ford Road and Ellicott Rock Wilderness, led by Darlene Moore; Black Rock Mountain State Park and Warwoman Dell Recreation Area, led by Georgann Schmalz; the Blairsville Ingles and Ivy Log Gap Road (west to east), led by Dan Vickers; Ivy Log Gap Road and the Blairsville Ingles (east to west), led by Carol Lambert and Jeff Sewell; Rabun Bald and the Dillard Loop, led by Louis Schweizer; and Tallulah Gorge State Park, led by Bill Lotz.

A poster session at 5:00 PM, a social hour at 6:00 PM, and a delicious banquet meal featuring prime rib preceded the main speaker Saturday night. GOS members were entertained that evening by author and adventurer Alan Tennant, whose book, *On the Wing: To the End of the Earth with the Peregrine Falcon*, documents his travels in a small airplane as he and the pilot followed a Peregrine Falcon on its migration journey from the Texas coast into Canada, and then later as they followed

(continued on page 6)

## GOS Spring Meeting Summary (continued from page 5)

falcons into Central America. Alan's use of a slide show and excerpts from his book kept the audience on the edge of their seats as he took us from one country to another, eloquently describing the successes and failures of the mission.

After Alan's presentation a species countdown was performed with the delightful assistance of Dot Freeman. One hundred seventeen bird species were observed during this weekend of birding.

Sunday's field trips also left at 6:20 AM from the hotel. Those field trips included "moveable feast" to Brasstown Bald and other sites, led by Dan Vickers; Smithgall Woods-Dukes Creek Conservation Area, led by Patty McLean; Black-Throated Blue Warbler banding, led by Kirk Stodola; Popcorn Overlook, Brasstown Bald and Sosebee Cove, led by Carol Lambert and Jeff Sewell; Ivy Log Gap Road, Gumlog Road and the Blairsville Ingles, led by Ken Blankenship; and Rabun Bald and Overflow Creek Road, led by Louis Schweizer.

It was an honor and a privilege to be on a field trip Sunday that included Dick Parks, one of the original founding members of GOS. That's one of the special reasons I personally enjoy the GOS meetings; it's not just about seeing the birds. Enjoying the company of other birders, getting to know familiar faces better, and seeing old friends again is just as exciting as seeing the Willow Flycatcher at the Ingles parking lot in Blairsville. So if you are new to GOS, or are a long time member who hasn't come to the spring or winter meetings, I encourage you to do so. Informative presenters, knowledgeable field trip leaders, great scenery, strong leadership, and just down-to-earth good people are what you will encounter.

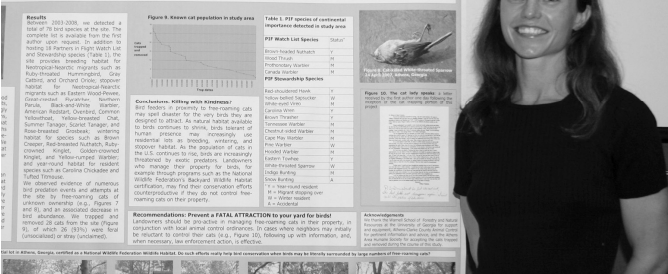

Consider making plans now to join us for the winter meeting to be held on Tybee Island, January 16-19, 2009. You can expect a good time and lots of wintering birds.

## GOS Spring Meeting Bird List Clayton, Georgia, May 16-18, 2008

*List compiled by Bill Lotz*

Canada Goose  
Mallard  
Ruffed Grouse  
Wild Turkey  
Black Vulture  
Turkey Vulture  
Northern Harrier  
Sharp-shinned Hawk  
Cooper's Hawk  
Red-shouldered Hawk  
Broad-winged Hawk  
Red-tailed Hawk  
American Kestrel  
Killdeer  
Rock Pigeon  
Eurasian Collared-Dove  
Mourning Dove  
Yellow-billed Cuckoo  
Barred Owl  
Common Nighthawk  
Chimney Swift  
Ruby-throated Hummingbird  
Belted Kingfisher  
Red-bellied Woodpecker  
Downy Woodpecker  
Hairy Woodpecker  
Northern Flicker  
Pileated Woodpecker  
Olive-sided Flycatcher  
Eastern Wood-Pewee  
Acadian Flycatcher  
Willow Flycatcher  
Least Flycatcher  
Eastern Phoebe  
Great Crested Flycatcher  
Eastern Kingbird  
White-eyed Vireo  
Yellow-throated Vireo  
Blue-headed Vireo  
Red-eyed Vireo  
Blue Jay  
American Crow  
Common Raven

Purple Martin  
Tree Swallow  
Northern Rough-winged Swallow  
Cliff Swallow  
Barn Swallow  
Carolina Chickadee  
Tufted Titmouse  
Red-breasted Nuthatch  
White-breasted Nuthatch  
Brown-headed Nuthatch  
Brown Creeper  
Carolina Wren  
House Wren  
Golden-crowned Kinglet  
Blue-gray Gnatcatcher  
Eastern Bluebird  
Veery  
Swainson's Thrush  
Wood Thrush  
American Robin  
Gray Catbird  
Northern Mockingbird  
Brown Thrasher  
European Starling  
Cedar Waxwing  
Blue-winged Warbler  
Golden-winged Warbler  
Northern Parula  
Yellow Warbler  
Chestnut-sided Warbler  
Magnolia Warbler  
Black-throated Blue Warbler  
Black-throated Green Warbler  
Blackburnian Warbler  
Yellow-throated Warbler  
Pine Warbler  
Prairie Warbler  
Palm Warbler  
Bay-breasted Warbler  
Blackpoll Warbler  
Cerulean Warbler  
Black-and-white Warbler

American Redstart  
Worm-eating Warbler  
Swainson's Warbler  
Ovenbird  
Northern Waterthrush  
Louisiana Waterthrush  
Kentucky Warbler  
Mourning Warbler  
Common Yellowthroat  
Hooded Warbler  
Wilson's Warbler  
Canada Warbler  
Yellow-breasted Chat  
Summer Tanager  
Scarlet Tanager  
Eastern Towhee  
Field Sparrow  
Song Sparrow  
Swamp Sparrow  
Dark-eyed Junco  
Northern Cardinal  
Rose-breasted Grosbeak  
Blue Grosbeak  
Indigo Bunting  
Red-winged Blackbird  
Eastern Meadowlark  
Common Grackle  
Brown-headed Cowbird  
Orchard Oriole  
House Finch  
American Goldfinch  
House Sparrow

*117 species*

## Want to Receive GOS Documents Electronically?

By Bob Sargent

I have to laugh whenever someone tells me that computers are kind to the environment because they reduce paper waste. You couldn't prove this assertion by me, as I slip on the printouts that overflow my recycle bin under my desk, or shove aside the printed e-mails (no kidding!) that someone has stacked on my keyboard. I realize that some of you live far from Georgia and may never attend one of our meetings, so maybe you don't want to receive meeting announcements. Additionally, those of you who are hand-cuffed to the computer universe have probably noticed that we post each new issue of *GOShawk* on the home page of our website, [www.gos.org](http://www.gos.org). We try to include meeting announcements in the newsletter whenever possible, rather than send separate mailings, but the timing of the two productions doesn't always merge. So if you're concerned about wasted paper and trees, or even if you're not, please feel free to answer the following questions by e-mailing me at [kywarbler@cox.net](mailto:kywarbler@cox.net):

- 1) Do you want to continue to receive GOS meeting announcements?
- 2) If you answered yes to question one, would you prefer to receive the announcements via e-mail?
- 3) Do you prefer to receive *GOShawk* in paper form or electronic form?

If you elect to receive *GOShawk* and/or meeting announcements electronically, what we'll do is e-mail to you the link where these documents can be found, rather than send them as e-mail attachments to dozens of people. It may interest you to know that we are currently working on storing the entire collection of *The Oriole* on DVD. Reviewing more than 70 years' worth of scanned journals is a slow process, but eventually we'll be able to provide the collection in electronic form to interested members and non-members.

## Announcement of GOS Bylaws Modifications

Our bylaws is a living document and, as such, requires modifications from time to time to reflect new needs and ideas, new technologies, and newly proposed operating procedures. The following modifications (see the underlined sections) will be presented to the Society for a vote of approval at the winter meeting in January:

Article III. Membership. Section 4. Receive a discounted rate on registration fees for Society meetings. Be afforded the opportunity to participate in members-only field trips. Have the exclusive opportunity to apply for GOS grant funds, if qualified (i.e., only graduate students can apply for some grants). Get discounts on the cost of some Society merchandise and publications.

Article V. Duties of Officers. Section 4. The secretary shall serve on the Education Committee, assisting with the evaluation of applications submitted for the Parks' scholarship, as well as the development and implementation of programs designed to teach the public about birds and conservation.

Article V. Duties of Officers. Section 7. Note: This is a newly created section, as no duties were previously defined in the bylaws for past presidents. The past president shall serve one two-year term and shall act in an advisory capacity to the president. The past president shall provide assistance at Society meetings, entertaining guest speakers if the first vice-president is otherwise engaged, providing assistance at the registration desk and greeting meeting attendees. The past president shall serve on the membership committee, assisting the chair of that body with efforts to recruit new members and shall assist other chairs with special projects, at the request of the president.

***In Memoriam: Dr. Joseph Greenberg***

*By John Swiderski*

Dr. Joseph Greenberg, 89, passed away on February 24, 2008, in Oakland, California, where had lived since 2006. He was a life member of GOS for 24 years.

Joe was born and raised in Massachusetts and received all of his education there. He entered Harvard graduate school in 1940 to study biology, but his progress toward his doctoral degree (1947) was interrupted by the war. Joe served in the Public Health Service and was deployed to the Pacific theater, where he was primarily involved in malaria control. He had vivid memories of coming under Japanese fire in a landing craft during the battle for Tarawa.

After completing his doctorate Joe embarked on quite a distinguished 33-year career conducting and directing medical and genetic research. In 1974 he came to Atlanta to cap his research career as chief of research for the Mycobacteriology Branch at the Centers for Disease Control. In 1980 Joe retired and remained in Atlanta.

Joe devoted much of his active retirement years to birds and birding. For more than twenty years he taught birding classes at Emory University and conducted countless field trips and expeditions. While birding was his main passion in life, he also loved good food and drink, music, and conversation. His Georgia life list, last published in this newsletter in 2000, totaled 339 species, still a very respectable total. He was concerned about songbird habitat destruction in the tropics and was a strong advocate for the use of shade-grown coffee. For nearly a decade Joe was state coordinator for the Breeding Bird Surveys and also served as a regional coordinator for the Breeding Bird Atlas block surveys.

Joe was recognized for his many accomplishments by GOS, which presented him with the Earle R. Greene Memorial Award in 1989. The Georgia General Assembly passed a resolution in 1997 commending him for his contributions to environmental awareness and protection of birds.

During his last few years of life Joe still managed to enjoy the birdlife coming to his feeders at Sunrise of Oakland Hills. He suffered numerous declines and then rallies during that time and his many friends began to lovingly call him “the Energizer Bunny.” He is survived by five children, nine grandchildren and three great-grandchildren.
